PERSONAL CALLS

Government telephones ore provided for official use only and ARE NOT TO BE USED FOR MAKING PERSONAL CALLS (Use public telephones for personal calls)

TRANSFERRING CALLS

To transfer an incoming call from the public to another number depress the handset plunger for one second and releose. Wait until the operotor comes in on your line, then request her to transfer the call.

Thru-Diol calls originoting from other government agencies of the Inter-departmental Dial System (IDS) cannot be transferred.

TIPS FOR BETTER TELEPHONE SERVICE

1. All Government telephones in the Woshington area are extremely busy in the afternoon between 2 p.m. and 5 p.m. Try to schedule importont calls ot other times during the day.
2. If you obtain information from on operator, record this information for future reference.
3. If the party you ore calling is busy, leave your name ond number and have the party return your call rather than "HOLD" the line. This will free the equipment for other calls.
4. Discourage prolonged conversations to relieve busy network conditions.
5. Attempt to answer all calls on the first ring. Give priority to the long-distance coller.
6. Do not use the commercial long-distonce network for calls outside the 40¢ limit area. These calls greatly increase your agency's bill. Use the Federal Telecommunications System (FTS) and save the taxpayers' money.
7. Use IDS codes for making inter-government calls. Each local call prefixed by 9, except between Government Centrex, cost the Government 3-3/4¢.

THE STANDARD ADMINISTATIVE CODE

Alongside your name in the white pages you will notice a new column headed "Administrative Code." This is the new Departmentwide code that is, in effect, your administrative address. Using the code, you can determine any number of things, such as, the area in which a person works at HEW, where a piece of correspondence actually originated, an address for internal mail, or you can use it as a reference point during discussions and conferences. In one sense, it is a type of "ZIP code." It probably has uses not yet though of.

This Administrative Code will also appear in the organizational listings in the Yellow Pages. The Code can save you time and effort, so use it to your advantage.

The Departmentwide listings (not just for the Washington area) will appear in a separate appendix to the General Administration Manual and will be convenient for your desk use.

INFORMATION AND LOCAL DIALING INSTRUCTIONS FOR GOVERNMENT CENTREX TELEPHONE SERVICE

On November 17, 1973, the General Services Administration Metro Centrex System will be established for the Department in the Southwest Washington Area. The Centrex telephone system now serving many of the Federal agencies in the Metropolitan D.C. area is divided into four, individual, centrex dialing zones. These zones are known as dialing zone A, dialing zone B, dialing zone C, and dialing zone D. Telephones serving DHEW in Southwest Washington, D.C. are in Dialing zone B.

Telephoning within a centrex dialing zone is accomplished on an extension to extension, dial-up basis. To complete a call within a centrex dialing zone, dial the last five digits of the desired number.

Calls between centrex dialing zones are completed by dialing 9 plus the seven digit centrex number. To complete a call from one dialing zone to another dialing zone dial 9 plus the desired seven digit centrex number.

Calls between Centrex Government agencies and non-centrex Government agencies are completed through the facilities of the Inter-Departmental Dial System (IDS). To complete a call from a centrex dialing zone to a non-centrex Government agency, dial the IDS code for the agency and the desired extension.
